Protecting
Our Warfighters

Engility provides an array of scientific and engineering services in ordnance and IED countermeasures, counter IED (C-IED) and EOD systems, and top secret special access programs as a significant contributor in the Global War On Terror (GWOT). Core areas of expertise and excellence include technical resource management, exercise planning, C-IED training, IED exploitation, robotics, and information technology management. In addition, Engility provides development and test support to IED detection and Electronic Warfare (EW) technologies. In support of the warfighter, Engility is forward deployed at six Combined Explosives eXploitation Cells (CEXC) in two combat theaters performing exploitation, IT support and triage.

The Engility team and its predecessor organizations have supported the NAVSEATECHDIV since 1991.

Explosive Ordnance Disposal Technology Department Provides

Ordnance Countermeasures

- Visual Information, Graphics, and Imagery
- Technical Resource Management
- RSP/Content Development
- Security Classification
- Ordnance Acquisition and Exploitation
- Radiography

IED Countermeasures

- Exploitation and Technical Forensics
- IED Triage
- Research and Analysis
- Intelligence and Technical Support
- C-IED Training

Counter-IED Systems

- Counter Radio-Controlled Improvised Explosive Device Electronic Warfare Systems (CREW)
- C-IED Technology Development and Evaluation
- Test and Evaluation

EOD Systems

- Robotic Systems
- Modeling and Simulation
- Logistics

Our Largest Customer
