

Solutions – Services – People

Engility provides exemplary Mission Assurance services to ensure the integrity of mission driven systems through Certification and Accreditation (C&A) and compliance activities.

Engility's staff of DoD 8570.1 certified professionals have the expertise, formal education, hands on experience, and security clearances to support systems and customers in multiple security domains. Our expert security engineers employ a broad range of tools and techniques combined with the Engility **On-DEMAND C&A** process to meet our customers' needs.

## On-DEMAND C&A

The Engility **On-DEMAND C&A** process allows Information Assurance Managers to customize their risk management and compliance support services to meet the unique requirements of their IA Program.

*The success of the Engility On-DEMAND C&A process is based on a simple rule: "Provide the right support for the right amount of time."*

To start the process, we match up the skill set and certification required to support our customers. We do this to ensure our customers do not pay for overqualified engineers and that they still meet their command requirements mandated by DoD 8570.1, IA Workforce Improvement Program.

After we select the ideal team, we will evaluate the workload to recommend a service solution that is designed specifically for a customer and their compliance requirements. This simple process has shown an immediate reduction in labor costs and a marked increase in team productivity.

To find out more about our process call the POCs listed on the back of this tri-fold.

Engility's **On-DEMAND C&A** customers include:

U.S. Navy - NSWC

U.S. Air Force

U.S. Marines

U.S. Coast Guard

DISA

NIFL

How can you reach us:

- GSA IT-70
- Encore II
- CEOss
- Seaport-e

During a 2009 inspection the Navy Sea Systems Command (NAVSEA) declared the Engility C&A team **On-DEMAND C&A** process as a "model for NAVSEA IA".

Our department consists of highly trained professionals, seasoned Subject Matter Experts, former and current DoD and Federal agency Security Certifiers, former Designated Approving Authorities (DAA), and retired or former military personnel from every branch of service with:

- Advanced degrees in IT and IA with certifications from the Information Systems Security Certification Consortium (ISC)2, ISACA, Microsoft, Cisco, and the Project Management Institute
- Proven track records for success in their field of expertise
- Decades of IT and IA experience
- Hands on experience with a variety of federal guidelines such as FISMA, FIPS, NIST, DCID/ICD, DITSCAP/DIACAP, HIPAA, and 801 compliance.
