“The only difference between a criminal, terrorist, spy, soldier is intent. The tactics, techniques, and capabilities are the same.” - Unknown

While our current customer base is primarily DoD, we have hands-on experience with a variety of Federal guidelines, such as FISMA, FIPS, NIST, DCID, DIACAP, and 801 compliance. Our expert security engineers currently employ a broad range of tools and techniques to support Security Testing and Engineering (ST&E) including, eEye Retina, Defense Information Systems Agency (DISA) Gold Disk, DISA Security Technical Implementation Guides (STIG) and National Security Agency (NSA) guidance. Our highly trusted employees hold a range of security clearances from Secret to Top Secret/SCI with Poly, allowing us to support systems and customers in multiple security domains.
